

# Muhammad Ahmad Khan

Software Engineer | Tech Evangelist

Email: rmahmadkhan@icloud.com

Website: mahmadkhan.com

## Summary

---

I'm a software engineer developing (and occasionally designing) exceptional digital experiences. I've had the privilege of working with multiple startups over the time building products having high user experience and performance. Being a tech evangelist, I've been a part of different tech communities like GDG, GDSC, Women Techmakers as a community manager and member.

## Experience

---

- Jaldi** Dubai, UAE (Remote)  
*Software Engineer* Mar 2022 - Present  
Jaldi removes the pain of cold calling so your team can focus on what's really important -> Calling More and Closing More. Jaldi allows managers to reduce cold calling admin work by 80%!
  - Deliver high-quality, robust production code for Jaldi's web & mobile apps in Flutter & Python
  - Work alongside co-founders & other team members to research, and develop technical solutions to fulfill business requirements
  - Collaborate with designers, & other engineers to transform creative concepts into production realities for clients & stakeholders
  - Provide leadership within engineering department through close collaboration, and knowledge shares
- Google for Developers** Pakistan (Remote)  
*GDG Organizer @GDG Live Pakistan* Jul 2021 - Present  
Google Developer Groups (GDGs) are local community chapters for people interested in Google developer technologies
